Dear Sir or Madam

SHANKER MOHAN
D.O.B. 16.6.75

I believe that Mr Mohan is coming to attend an interview for a post of Registrar in Oral & Maxillofacial Surgery with you.

I have known Mr Mohan for 2 years now, I have always found him to be trustworthy and reliable to almost ridiculous extremes. He is someone that I would put my utmost faith and trust in to get any job done. If you ask him a question, he invariably knows it, if you ask him to do something, you do not need to check, it is always done.

As far as his surgical ability is concerned, I would have no problem with asking him to perform any minor surgery upon myself.

He has been my own SHO for the last 4 months. During this time, I have regarded him more as a Registrar. Unfortunately, we are not able to appoint ^{senior} ~~senior~~ qualified Registrars to our Registrar positions.

In summary, I would dearly like him not to get this job as he has a job here tailor-made for him. Having said that, I appreciate that he needs to get the title of Registrar and I believe that you would not find a finer candidate. It is therefore with some regret that I recommend him very highly to you.

Kindest regards.

Yours sincerely

SIMON HOLMES, FDSRCS., FRCS.,
CONSULTANT ORAL & MAXILLOFACIAL SURGEON
