TO WHOM IT MAY CONCERN

Shanker has been a Registrar in the Oral and Maxillofacial surgery at the National Maxillofacial Unit from August 2003 – December 2006.

Shanker has been an outstanding Registrar. Since his appointment he has progressed in his training in a most satisfactory manner. He is hard working and is an excellent Clinician and has mastered a full range of surgical procedures within the speciality. He interacts with patients and colleagues in an exemplary manner and has a very pleasant personality. He is a good team player. In addition, he is an excellent teacher. He has fully participated in registrar teaching sessions and imparts knowledge to his juniors in a clear and concise manner.

It is without hesitation that I fully support his application to relevant consultant/academic position.

If at any stage you require any additional information, please do not hesitate to contact me.

Yours sincerely

FRANK A. BRADY
